Euro Door Pull Back-to-back fixings - 50mm - Pewter

Variant code: 90040

Our euro door pulls are designed to be fitted with euro cylinders. This product is used on entrance doors to pull or push the door into the open/closed position.

Our back-to-back euro pull is forged from solid brass. The different elevations highlight all of the hand finishing that is carried out in our factory. A perfect design choice for external doors with matching products available.

Designed to match our other aged brass front door furniture to create a feature entrance door.

- This door pull is used with a euro profile lock in conjunction with a euro cylinder.
- Maximum door thickness: 64mm.
- Sold with matching bolt-through fixings which are concealed from the external side of the door.
