

**FLEXYLED HE8B**

flexible linear LED module

Length	Watt	Volt
20mm	9,6W/m	24VDC

On request, a Plug&Play cable system, named CH is available, which allows you to create custom lengths of FLEXYLED HE8B from the roll without the need for complicated wire soldering. The set has a 2000 mm power cord, a connector for continuous installation and interconnection cables of various lengths.

# FLEXYLED HE8B

## flexible linear LED module

FLEXYLED HE8B is a dimmable light source developed on a 120 LED/m flexible linear module on a circuit 8mm wide with adhesive base, designed for installation in profiles with a removable diffuser. The module, which can be divided at 50 mm (6 LED) intervals, features reinforced soldered power supply cable terminals which ensure good solidity. FLEXYLED HE8B is available in 20m long rolls without power cable. Modules in customised lengths with 2000 mm power cable and Micro24 connector are available on request. Power supply not included. To be ordered separately.
