Sugatsune Heavy Duty Concealed Cabinet Door Hinge - Arm Cover Plate Overlay - Nickel

Variant code: ACH09100NI

Sugatsune Heavy Duty Concealed Cabinet Door Hinge - Arm Cover Plate Overlay - Nickel is designed to conceal and protect the exposed hinge arm on overlay concealed hinge installations, improving both durability and cabinet presentation. Manufactured by **Sugatsune**, a globally recognised specialist in precision architectural and furniture hardware, this cover plate provides a clean finishing detail while maintaining compatibility with heavy-duty concealed hinge systems.

The arm cover plate fits securely over the hinge arm to **hide visible mechanical components**, creating a more uniform and refined cabinet interior. By covering exposed hinge parts, it enhances the overall aesthetic while also helping to protect the hinge from dust, debris and accidental contact during everyday use. This contributes to maintaining consistent hinge performance over time.

Designed specifically for **overlay concealed hinge applications**, the cover plate integrates seamlessly with compatible Sugatsune hinge systems without affecting hinge movement or door operation. Its precision fit ensures full functionality is retained while improving the visual appearance of the installation.

Finished in a **durable nickel-plated surface**, the cover plate offers a clean and neutral appearance that complements a wide range of cabinetry styles. The finish provides good resistance to wear, making it suitable for both residential and light commercial environments where long-term performance and appearance are important.

Product Features

- Designed to **cover concealed hinge arm components**
- Compatible with **heavy-duty concealed hinge systems**
- **Overlay application compatibility**
- **Nickel-plated finish** for a clean, neutral

look
- Helps protect hinge components from dust and contact
- Precision fit without interfering with hinge operation

Product Benefits

- Improves cabinet interior appearance with a clean finish
- Enhances the overall presentation of concealed hinge installations
- Protects hinge components from everyday wear and debris
- Supports consistent and reliable hinge performance
- Coordinates with a wide range of cabinet hardware finishes
- Suitable for residential and commercial cabinetry

Technical Characteristics

- Cover plate for concealed hinge arm protection
- Designed for overlay cabinet hinge configurations
- Compatible with Sugatsune heavy-duty hinge systems
- Nickel-plated steel construction
- Snap-on or push-fit installation over hinge arm
- Suitable for internal cabinet applications

Applications

This hinge arm cover plate is used in cabinetry where heavy-duty concealed hinges are installed and a clean, finished appearance is required. It is commonly specified in kitchens, wardrobes, office furniture and commercial joinery projects where both durability and aesthetics are important. The nickel finish makes it suitable for a wide range of cabinet styles, from traditional to contemporary interiors.
