

24v Power Supply with 0.5m Output Cable with 10 Way Micro Connectors – 2m – 100w

Variant code: LDP241009

The **24V 100W Power Supply with 0.5m Output Cable & 10-Way Micro24 Connector** is a high-performance LED driver designed to provide reliable power for compatible **Domus Line 24V lighting systems**. Delivering a stable **24V DC output** with a maximum power rating of **100W**, it is ideal for powering multiple LED luminaires from a single driver.

Supplied with a **2000mm UK power cord** featuring a standard 3-pin plug, the power supply also includes a **500mm output cable** terminating in a **10-way Micro24 female distributor**. This integrated connection system enables quick plug-and-play installation of compatible LED lights, sensors and accessories without the need for complex wiring.

Designed for professional furniture lighting installations, this 100W power supply offers dependable performance and simplified installation for kitchens, wardrobes, display cabinets and bespoke joinery projects.

Product Features

- 24V DC LED power supply
- Maximum output power: 100W
- Integrated Micro24 connection system
- 2000mm input power cable with UK 3-pin plug
- 500mm output cable
- 10-way Micro24 female distributor
- Plug-and-play installation
- Suitable for powering multiple compatible LED luminaires
- Reliable, stable power output

Product Benefits

- Provides a stable 24V DC supply for compatible Domus Line LED lighting systems
- Integrated 10-way Micro24 distributor simplifies multi-light installations
- Plug-and-play connectors reduce

installation time and eliminate complex wiring

- 100W capacity supports larger furniture lighting installations
- 2m mains cable offers flexible positioning of the power supply
- 500mm output cable provides convenient connection to lighting components
- Ideal for professional residential and commercial applications
- Reliable performance for long-term LED system operation

Technical Characteristics

- Product Type: LED Power Supply / Driver
- Output Voltage: 24V DC
- Maximum Power: 100W
- Connection System: Micro24
- Input Cable: 2000mm with UK 3-Pin Plug
- Output Cable: 500mm
- Output Connections: 10 x Micro24 Female Connectors
- Installation: Plug-and-Play
- Compatibility: Domus Line 24V Micro24 Lighting Systems

Applications

The **24V 100W Power Supply with 0.5m Output Cable & 10-Way Micro24 Connector** is ideal for powering **under-cabinet lighting, wardrobe lighting, shelving, display cabinets, retail displays, office furniture, hospitality interiors and bespoke joinery**. Its integrated 10-way Micro24 distributor provides a clean, efficient and professional solution for installations requiring multiple compatible 24V LED luminaires and accessories.

Property	Value
Voltage	24V DC
Cable Length (m)	2
Power Rating (W)	100
Input Connection Type	2000mm with UK 3-Pin Plug
Output Connection Type	10 x Micro24 Female Connectors
Connection System	Micro24
