24v 1w PIXEL Recessed Micro Spot Light - 35mm ø, 2m Cable - 4000k Neutral White - Black

Variant code: LLP24035BKNW

The **24V 1W PIXEL Recessed Micro Spot Light** is a compact LED luminaire designed to provide precise, symmetrical accent lighting for furniture and display applications. Emitting a **4000K Neutral White** light, it is particularly recommended for illuminating the interior of **glass display cabinets**, where focused, high-quality lighting enhances showcased items.

Manufactured from durable **brass and polycarbonate**, the PIXEL features a recessed design that installs neatly into **30mm through or blind holes**, creating a clean and unobtrusive finish. The spotlight produces symmetrical light projection, making it ideal for highlighting display objects, shelving and decorative features while maintaining a minimalist appearance.

Supplied with a **2 metre power cable**, the PIXEL is suitable for under-cabinet and under-shelf installations in residential and commercial furniture applications. Its low 1W power consumption delivers efficient accent lighting while integrating seamlessly with compatible 24V Domus Line lighting systems.

Product Features

- 24V recessed micro LED spotlight
- Power consumption: 1W
- 4000K Neutral White light output
- Symmetrical accent light projection
- Designed for recessed installation
- Suitable for 30mm through and blind holes
- Recommended for glass display cabinet interiors
- Manufactured from brass and polycarbonate
