

24v 3 Sensor Distributor for IR Sensors – 60 x 35mm

Variant code: LPX2403

3 Slot Sensor Distributor for Smart Power Supply.

This is a special distributor for converters in the Smart Power Supply collection, used to multiply the sensor outputs up to 6 and designed specifically for LDX24IR infra-red sensors. Designed with 3 slots, it is supplied with a connection cable.

The LDX24IR infra-red sensors with limit switch function are supplied separately.
