

24v 36-72w TOM Recessed Micro Touch Dimmable Switch 22mm ø - Silver

Variant code: LSS24022

TOM is a micro touch switch for controlling single-colour LED luminaires.

Designed for flush-mounting in a hole with a diameter of 20 mm/depth of 10.5 mm, it connects between the power supply and the lamps (both 12Vdc and 24Vdc).

It manages the on-off functions and the brightness. The unit incorporates a light ring to indicate the operating status of the device.

Features include:

- Power - 36-72w
- Connection system - Micro24
- Input wiring - 2000mm micro24 male
- Output wiring - 2000mm +150mm 10x Micro24 female
