24v 4.5w HOLL LED Under Cabinet Surface Light 2700-4000k - 76mm ø x 12.5mm - Temperature Changing - Black

Variant code: LHO24076BKCT

The **24V 4.5W HOLL LED Under Cabinet Surface Light** is a premium furniture luminaire designed to provide elegant perimeter illumination for modern cabinetry and shelving. Finished in **Black**, it features a **Temperature Changing light source (2700K–4000K)**, allowing users to adjust the light from warm white to natural white to suit different environments and tasks.

The HOLL luminaire incorporates a **perimeter LED light source** integrated within a support designed for installation in a **blind groove**, creating a discreet appearance with uniform light distribution. Constructed from durable **thermoplastic polymers and polycarbonate**, it is supplied with a **2000mm power cable** featuring a **Micro24 connector**, with either axial or radial cable exit to simplify installation.

Designed for under-cabinet and under-shelf lighting, the HOLL combines contemporary styling with efficient 24V LED technology, making it an ideal solution for residential and commercial furniture lighting projects.

Product Features

- 24V LED under cabinet surface light
- Power consumption: 4.5W
- Temperature Changing light (2700K–4000K)
- Elegant perimeter LED light source
- Black finish
- 76mm diameter x 12.5mm depth
- Support designed for installation in a blind groove
- Manufactured from thermoplastic polymers and polycarbonate
- 2000mm power cable with Micro24 connector
- Axial or radial cable outlet for flexible installation
- Suitable for under-cabinet and under-shelf applications

- Compatible with Domus Line 24V Temperature Changing lighting systems

Product Benefits

- **Adjustable colour temperature provides the ideal lighting atmosphere for different tasks and environments**
- **Perimeter illumination creates soft, uniform light with a modern appearance**
- **Micro24 Plug & Play connection enables quick and straightforward installation**
- Discreet blind groove installation delivers a clean, integrated finish
- Durable construction ensures long-lasting performance
- Flexible cable outlet options simplify installation in a variety of furniture designs
- Low-power 4.5W LED technology offers efficient illumination
- Ideal for contemporary residential and commercial interiors

Technical Characteristics

- Product Type: LED Under Cabinet Surface Light
- Model: HOLL
- System Voltage: 24V DC
- Power Consumption: 4.5W
- Light Colour: Temperature Changing (2700K–4000K)
- Light Source: Perimeter LED
- Dimensions: 76mm Ø x 12.5mm
- Material: Thermoplastic Polymers, Polycarbonate
- Finish: Black
- Installation: Blind Groove
- Application: Under Cabinet / Under Shelf
- Power Cable Length: 2000mm
- Connector: Micro24
- Cable Exit: Axial or Radial
- Compatibility: Domus Line 24V Temperature Changing Lighting Systems

Applications

The **24V 4.5W HOLL LED Under Cabinet Surface Light** is ideal for **under-cabinet lighting, shelving, wardrobes, display cabinets, kitchen furniture, retail displays, office furniture, hospitality interiors and bespoke joinery**. Its perimeter light design, blind groove installation and adjustable 2700K–4000K colour temperature provide an
