24v 4.5w HOLL Touch LED Under Cabinet Surface Light 2700-4000k - 76mm ø x 12.5mm - Temperature Changing - Black

Variant code: LHOT24076BKCT

The **24V 4.5W HOLL Touch LED Under Cabinet Surface Light** is a premium furniture luminaire featuring an integrated **touch dimmer master switch** and a **Temperature Changing LED light source (2700K–4000K)**. Finished in **Black**, it combines elegant perimeter illumination with intuitive touch control, making it an ideal lighting solution for modern kitchens, wardrobes and bespoke furniture.

The HOLL Touch incorporates a **perimeter LED light source** integrated within a support designed for installation in a **blind groove**, creating a discreet and contemporary appearance. The integrated touch dimmer allows the luminaire, along with any compatible luminaires connected to the HOLL Touch output cable, to be switched on and off while providing smooth brightness adjustment from **5% to 100%**. It is supplied with a **2000mm power cable** featuring a **Micro24 connector**, with either axial or radial cable exit for flexible installation.

Manufactured from durable **thermoplastic polymers and polycarbonate**, the HOLL Touch is designed for under-cabinet and under-shelf lighting applications. **Please note: LED converter sold separately.**

Product Features

- 24V LED under cabinet surface light with integrated touch dimmer master switch
- Power consumption: 4.5W
- Temperature Changing light (2700K–4000K)
- Elegant perimeter LED light source
- Integrated touch control for on/off switching and dimming
- Brightness adjustment from 5% to 100%
- Controls the individual luminaire and compatible connected luminaires
- Black finish
- 76mm diameter x 12.5mm depth

- Support designed for installation in a blind groove
- Manufactured from thermoplastic polymers and polycarbonate
- 2000mm power cable with Micro24 connector
- Axial or radial cable outlet
- LED converter sold separately

Product Benefits

- **Integrated touch dimmer provides convenient on/off control and smooth brightness adjustment**
- **Controls both the master luminaire and compatible connected luminaires from a single touch point**
- **Adjustable colour temperature allows lighting to be tailored from warm white to natural white**
- Perimeter illumination creates soft, even lighting with a contemporary appearance
- Blind groove installation delivers a discreet, integrated finish
- Micro24 Plug & Play connection enables fast and straightforward installation
- Durable construction ensures reliable long-term performance
- Ideal for modern residential and commercial furniture lighting

Technical Characteristics

- Product Type: Touch LED Under Cabinet Surface Light
- Model: HOLL Touch
- System Voltage: 24V DC
- Power Consumption: 4.5W
- Light Colour: Temperature Changing (2700K–4000K)
- Dimming Range: 5%–100%
- Touch Function: On/Off and Brightness Control
- Light Source: Perimeter LED
- Dimensions: 76mm Ø x 12.5mm
- Material: Thermoplastic Polymers, Polycarbonate
- Finish: Black
- Installation: Blind Groove (Recessed)
- Application: Under Cabinet / Under Shelf
- Power Cable Length: 2000mm
- Connector: Micro24
- Cable Exit: Axial or Radial
- LED Converter: Sold Separately
- Compatibility: Domus Line 24V Temperature Changing Lighting Systems
