24v 5w VEGA LED Under Cabinet Surface Light - 170 x 50 x 5mm - Aluminium - 3900k Neutral White

Variant code: LLV24080ALNW

The **24V 5W VEGA LED Under Cabinet Surface Light** is an ultra-slim LED luminaire designed to provide elegant, uniform illumination for modern furniture, cabinetry and display applications. Manufactured entirely from **aluminium** and measuring just **5mm thick**, VEGA delivers a sleek, contemporary appearance while remaining exceptionally easy to install.

Utilising an advanced **LGP (Light Guide Plate) LED cluster**, the VEGA produces a wide, diffused beam of **3000K warm white light** with no visible LED dot effect. The fitting can be mounted directly onto surfaces or walls using just **two screws**, while the rear cable exit allows the power lead to be concealed behind the cabinet without requiring complex routing or large cut-outs.

Available in both **Warm White (3000K)** and **Neutral White (4000K)**, the VEGA can be purchased individually or as complete kits with compatible power supplies, making it a versatile lighting solution for residential and commercial furniture installations.

Product Features

- Ultra-slim LED under cabinet surface light
- 24V DC operation
- 5W power consumption
- 3000K Warm White light output
- Manufactured entirely from aluminium
- Only 5mm thick for a discreet installation
