

24v 5w VEGA LED Under Cabinet Surface Light 3900k – 170 x 50 x 5mm – Neutral White – Black

Variant code: LLV24080BKNW

The VEGA LED is a luminaire made entirely of aluminium with a thickness of only 5mm.

The luminaire integrates a special LGP LED cluster which provides a broad, diffused light projection without dot effect. It has been designed for rapid mounting on the surface or wall with only two screws making it possible to conceal the power wire directly on the back of the cabinet without having to plan preventive and complex holes in the furniture.

Choose from Neutral or Warm white light.

Sold individually or in kits of 3 spotlights and 30w Power Supply or 6 spotlights with a 60w Power Supply included

Available in Aluminium and Black finish.
