24v 6mm Fast Slide Power Cable - 2000mm

Variant code: LFC24200

The **24V 6mm Fast Slide Power Cable** is a dedicated connection lead designed for use with compatible **Domus Line made-to-measure LED profiles**. Measuring **2000mm** in length, it provides a reliable power connection between compatible lighting profiles and Domus Line Micro24 power systems, making installation quick, neat and efficient.

Featuring a **CH6 connector** at one end and a **Micro24 connector** at the other, the cable is intended for **configurations without a sensor**. Its plug-and-play design enables fast connection to compatible LED profiles while maintaining a tidy installation with minimal wiring complexity.

Designed specifically for professional furniture lighting applications, this Fast Slide Power Cable offers dependable connectivity for under-cabinet, shelving and display lighting installations using compatible Domus Line components.

Product Features

- Connection cable for compatible made-to-measure LED profiles
- Suitable for 24V lighting systems
- 2000mm cable length
- CH6 connector for compatible LED profiles
- Micro24 connector for compatible Domus Line power supplies
- Designed for installations without a sensor
- Plug-and-play connection
- Provides reliable power transfer between compatible components

Product Benefits

- **Provides a simple and reliable connection between compatible LED profiles and Micro24 power supplies**
- **2m cable offers flexibility when positioning luminaires and power supplies**
- **Plug-and-play connectors reduce installation time and simplify wiring**
- Designed specifically for made-to-

measure Domus Line LED profile systems
- Helps create clean, professional furniture lighting installations
- Ideal for new installations and replacement applications
- Suitable for residential and commercial furniture lighting projects
- Compatible with sensor-free lighting configurations

Technical Characteristics

- Product Type: LED Connection Cable
- System Voltage: 24V
- Cable Length: 2000mm
- Profile Connector: CH6
- Power Supply Connector: Micro24
- Application: Made-to-Measure LED Profiles
- Configuration: Without Sensor
- Compatibility: Domus Line Compatible 24V Micro24 Lighting Systems

Applications

The **24V 6mm Fast Slide Power Cable** is ideal for connecting compatible **made-to-measure LED profiles** in **kitchen cabinets, wardrobes, shelving, display cabinets, retail displays, office furniture, hospitality interiors and bespoke joinery**. Its 2m length and plug-and-play CH6 and Micro24 connectors provide a neat and dependable solution for sensor-free furniture lighting installations.
