24v 72w GIRO Surface Mounted Wireless Remote Dimmer Switch with Receiver - 42mm ø - Black - Temperature Changing Lights

Variant code: LRC24042CTSE

The **24V 72W GIRO Surface Mounted Wireless Remote Dimmer Switch with Receiver** is an elegant wireless lighting control system designed for compatible **Domus Line 24V Temperature Changing LED luminaires**. Finished in **Black**, the compact surface-mounted remote provides intuitive control of both lighting brightness and colour temperature, making it ideal for modern furniture lighting installations.

The system consists of a stylish **two-button wireless remote control** and a receiver unit equipped with **six Micro24 connectors** and an illuminated configuration button for straightforward installation and pairing. Designed specifically for **Temperature Changing lighting**, the GIRO allows compatible luminaires to be switched on and off, dimmed and controlled wirelessly without additional control wiring.

Suitable for installations up to **72W at 24V**, the GIRO offers a clean, cable-free control solution for kitchens, wardrobes, display cabinets and bespoke furniture, while integrating seamlessly with compatible Domus Line lighting systems.

Product Features

- Wireless remote dimmer switch with receiver for Temperature Changing LED lighting
- Compatible with 24V Domus Line lighting systems
- Maximum connected load: 72W
- Surface-mounted wireless remote control
- Stylish Black finish
- 42mm diameter remote control
- Receiver equipped with 6 Micro24 output connectors
- Illuminated configuration button for simple pairing and setup
- Wireless switching, dimming and colour temperature control

- Quick plug-and-play installation

Product Benefits

- **Wirelessly controls compatible Temperature Changing LED luminaires without additional control wiring**
- **Adjust brightness and colour temperature from a compact two-button remote**
- **Integrated 6-way Micro24 receiver simplifies multi-light installations**
- Modern Black finish complements contemporary furniture and cabinetry
- Compact surface-mounted design allows flexible positioning
- Quick pairing using the illuminated configuration button
- Suitable for residential and commercial furniture lighting applications
- Provides a clean, professional smart lighting solution

Technical Characteristics

- Product Type: Wireless Remote Dimmer Switch with Receiver
- Model: GIRO
- Application: Temperature Changing LED Luminaires
- System Voltage: 24V DC
- Maximum Load: 72W
- Control Type: Wireless Remote
- Remote Control: Two-button design
- Receiver Outputs: 6 x Micro24 Connectors
- Configuration: Illuminated Pairing Button
- Remote Diameter: 42mm
- Finish: Black
- Installation: Surface Mounted
- Compatibility: Domus Line 24V Temperature Changing Lighting Systems

Applications

The **24V 72W GIRO Surface Mounted Wireless Remote Dimmer Switch with Receiver** is ideal for controlling **Temperature Changing under-cabinet lighting, wardrobe lighting, shelving, display cabinets, kitchen furniture, retail displays, office furniture, hotel interiors and bespoke joinery**. Its wireless operation, compact design and integrated Micro24 receiver provide a convenient and professional solution for adjusting both light intensity and colour temperature in compatible Domus Line lighting systems.
