

24v 9.6wm 120 LED 8mm Made to Measure Flexible Tape Dimmable 4000k – 20000mm – Neutral White

Variant code: LFS24120NW.20000

Flexible linear LED module

Dimmable light source developed on a 120 LED/m flexible linear module on a circuit 8mm wide, designed for installation in profiles with a removable diffuser.

The module, which can be divided at 50 mm (6 LED) intervals, features reinforced soldered power supply cable terminals which ensure good solidity.

Features include:

- Output – 24v
- Power – 9.6wm
- Materials – flexible LED strip with adhesive backing, high reflectance paint covering
- Length – 20m
- Installation – surface or integrated into profiles
- Colour appearance – Available in Neutral and Warm White

Power supply sold separately.
