24v 20w 144 LED SE Flexible Seamless Tape IP44 2700-4000k - Temperature Changing - 2000mm

Variant code: LFS24144SECT.2000

Flexible linear LED profile with Temperature Changing light source

Dual-colour Temperature Changing. flexible linear LED profile made of co-extruded reflective and diffusing silicone materials, with 144 +144 LEDs/m, designed to be recessed in a milled groove flush with the panel, or integrated in aluminium profiles.

Thanks to its flexibility,this LED tape can also be installed on curved milled groove, ring or any other configuration, press-fitted without glue or adhesives. Stainless steel clips for installation on 13-22 thick panels are also available.

The LED profile can be divided at 41.67 mm (6+6 LED) intervals.

Available in 2000mm and 3000mm long rolls with 2000 mm long double power cable featuring Micro24 connectors.

Power supply sold separately.
