

24v PIXEL 1w Surface Straight Micro Spot Light with TOM Controller & 30w Power Supply – Super Warm White – Black – 6 Pack

Variant code: LLPK24630WSPBKWW

PIXEL is a micro spotlight with symmetrical accent light projection for recessed installation in a groove, recommended for application to the inside of glass display cabinets.

PIXEL is installed in both through and blind holes with 30 mm diameter.

Features include:

- Power – 1w
- Materials – brass, polycarbonate
- Installation – recessed
- Application type – under cabinet/shelf
- Colour appearance – neutral or warm white
- Finish – black or satin nickel

Kits include:

- 3 or 6 PIXEL micro spotlights
- TOM Recessed Micro Touch Dimmable Switch
- Straight spacers allowing for the PIXEL micro spotlight to be installed surface mounted, protruding 21mm from the surface
- 30w Power Supply
