24v Power Supply with 0.5m Output Cable with 9 Way Micro Connectors - 2m - 15w

Variant code: LDP24159

The **24V Power Supply with 9-Way Micro24 Distributor** is a compact and reliable LED driver designed to power compatible **24V Domus Line lighting systems**. Available in **15W, 30W and 60W** power ratings, it provides a dependable constant voltage output and simplifies installation with integrated Micro24 distribution for multiple luminaires and accessories.

Supplied with a **2000mm mains power cable** fitted with a UK 3-pin plug and a **500mm output cable** terminating in a **9-way Micro24 female distributor**, the power supply allows quick plug-and-play connection of compatible LED lights, switches and sensors. The integrated distributor reduces additional wiring components, helping to create a clean, organised installation.

Designed for residential and commercial furniture lighting applications, this power supply is ideal for powering under-cabinet lighting, wardrobe lighting and display illumination where multiple compatible LED luminaires are connected from a single driver.

Product Features

- Constant voltage LED power supply for 24V lighting systems
- Available in 15W, 30W and 60W power outputs
- 24V DC output
- Integrated 9-way Micro24 female distributor
- Compatible with Domus Line Micro24 lighting components
- 2000mm mains input cable with UK 3-pin plug
- 500mm output cable with integrated distributor
- Plug-and-play installation
- Suitable for powering multiple compatible LED luminaires
- Compact design for discreet installation within furniture and cabinetry

Product Benefits

Tel: 01626 333900
Email: info@swshardware.com

- **Powers multiple compatible 24V LED luminaires from a single compact driver**
- **Integrated 9-way Micro24 distributor simplifies installation and reduces wiring complexity**
- **Available in multiple power ratings to suit a wide range of lighting installations**
- Pre-fitted mains lead enables quick installation
- Micro24 connections provide secure, reliable plug-and-play connectivity
- Compact housing is easy to conceal within cabinets and furniture
- Suitable for both residential and commercial lighting applications
- Designed for reliable performance with compatible Domus Line lighting systems

Technical Characteristics

- Product Type: LED Power Supply
- Output Voltage: 24V DC
- Power Ratings: 15W, 30W or 60W
- Connection System: Micro24
- Input Wiring: 2000mm mains cable with UK 3-pin plug
- Output Wiring: 500mm cable with 9-way Micro24 female distributor
- Distribution: 9 Output Connections
- Installation: Indoor Use
- Compatibility: Domus Line 24V Micro24 LED Lighting Systems

Applications

The **24V Power Supply with 9-Way Micro24 Distributor** is ideal for powering compatible **under-cabinet lighting, wardrobe lighting, shelving illumination, display cabinets, kitchen furniture, retail displays, office furniture, hospitality interiors and bespoke joinery**. Its integrated Micro24 distribution system provides a convenient, professional solution for connecting multiple LED luminaires, switches and sensors from a single power source.

Property	Value
Voltage	24V DC
Power Rating (W)	15
Connection System	Micro24
Input Cable Length (m)	2
