24v Single Male to 10 Female Distributor - 150mm Cord

Variant code: LPA24010

The **24V Single Male to 10 Female Micro24 Distributor** is a convenient plug-and-play distribution accessory designed for expanding compatible **Domus Line 24V lighting systems**. Featuring a **single Micro24 male input** and **ten Micro24 female output ports**, it enables multiple LED luminaires or accessories to be connected from a single power source quickly and efficiently.

Supplied with a **150mm connecting cord**, the distributor provides a compact and tidy wiring solution for furniture lighting installations. The Micro24 connection system allows fast installation without cutting, soldering or complex wiring, making it ideal for professional cabinet, wardrobe and display lighting applications.

Designed for compatibility with Domus Line Micro24 lighting components, this distributor helps simplify multi-light installations while maintaining reliable electrical continuity throughout the system.

Product Features

- 24V Micro24 distributor for compatible Domus Line lighting systems
- Single Micro24 male input connector
- 10 x Micro24 female output ports
- 150mm connecting cord
- Plug-and-play Micro24 connection system
- Compact, space-saving design
- Provides reliable electrical distribution
- Suitable for multi-light furniture installations

Product Benefits

- **Connects up to 10 compatible Micro24 lighting components from a single input**
- **Plug-and-play connectors eliminate cutting, soldering and complicated wiring**
- **Creates a neat and organised wiring layout inside furniture and cabinetry**
- Speeds up installation and reduces labour time
- Maintains reliable electrical continuity
