24v UK Power Cord Figure 8 for EASi and Smart Power Supply - 2000mm

Variant code: LPC24240

The **24V UK Figure 8 Power Cord** is a genuine mains power cable designed for use with compatible **Domus Line EASi Drivers** and **Smart Power Supplies**. Featuring a standard UK 3-pin plug and a Figure 8 connector, this 2 metre cable provides a reliable connection between the mains supply and compatible LED drivers.

Manufactured for dependable performance and straightforward installation, the power cord offers a simple plug-and-play solution for powering compatible Domus Line lighting systems. Its generous **2000mm cable length** provides flexibility when positioning power supplies within furniture, cabinets or display installations.

Ideal for both new installations and replacement applications, this UK Figure 8 power cord ensures safe and reliable operation of compatible EASi and Smart Power Supply units.

Product Features

- UK Figure 8 mains power cord
- Designed for compatible Domus Line EASi Drivers and Smart Power Supplies
- Standard UK 3-pin plug
- Figure 8 connector
- 2000mm cable length
