

## Ring Door Knocker – 4" – Black

**Variant code: 33869**

Our extensive selection of door knockers suit a variety of doors from timber, composite, upvc and aluminium offering both traditional and contemporary designs.

One of our most traditional products, a classic knocker best suited to cottage front doors.

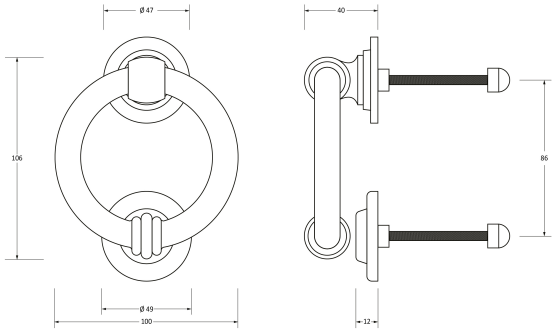

Fixed to your door using a bolt-through fixing for the knocker and strike plate, which is finished with a dome head cap on the internal side of the door.

Supplied with matching 70mm stainless steel threaded bars and dome headed caps.

Our black finish is a popular choice in traditional settings, it has a subtle sheen and offers a bold contrast on both stained and painted timber alike. It is baked in a high-temperature oven giving it durable corrosion resistant properties.

Property	Value
Finish	Black
Width (mm)	100
Depth (mm)	40
Range	Ring
Overall Length (mm)	106

Gallery

Technical drawing of a 4" Ring Door Knocker. The drawing includes three views: a front view showing the ring and base plate, a side view showing the profile of the base plate, and a top view showing the mounting holes. Dimensions are provided: the ring has an outer diameter of 106mm and an inner diameter of 60mm. The base plate has a width of 60mm and a height of 86mm. The mounting holes are spaced 120mm apart horizontally and 12mm apart vertically.

Please Note, due to the hand crafted nature of our products all measurements are approximate and should be used as a guide only.
