

Ring Door Knocker – 4" – Black

Variant code: 33869

Our extensive selection of door knockers suit a variety of doors from timber, composite, upvc and aluminium offering both traditional and contemporary designs.

One of our most traditional products, a classic knocker best suited to cottage front doors.

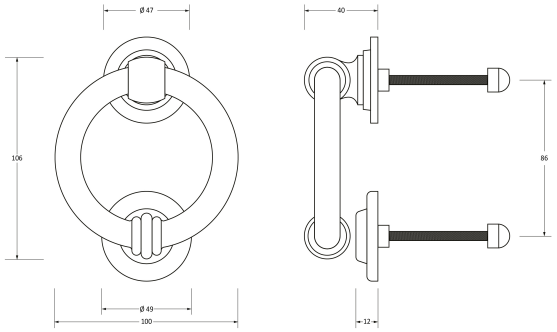

Fixed to your door using a bolt-through fixing for the knocker and strike plate, which is finished with a dome head cap on the internal side of the door.

Supplied with matching 70mm stainless steel threaded bars and dome headed caps.

Our black finish is a popular choice in traditional settings, it has a subtle sheen and offers a bold contrast on both stained and painted timber alike. It is baked in a high-temperature oven giving it durable corrosion resistant properties.

Property	Value
Finish	Black
Depth (mm)	40
Width (mm)	100
Range	Ring
Overall Length (mm)	106

Gallery

Technical drawing of a 4 inch Ring Door Knocker. The front view shows a circular ring with a diameter of 47mm (Ø 47) and a height of 106mm. The side view shows the mounting plate with a width of 60mm and a height of 86mm. The mounting plate has a thickness of 12mm. The ring is attached to the plate via two vertical studs, each with a diameter of 49mm (Ø 49) and a height of 100mm.

Please Note, due to the hand crafted nature of our products all measurements are approximate and should be used as a guide only.
