

## Ring Door Knocker – 4" – Black

**Variant code: 33869**

Our extensive selection of door knockers suit a variety of doors from timber, composite, upvc and aluminium offering both traditional and contemporary designs.

One of our most traditional products, a classic knocker best suited to cottage front doors.

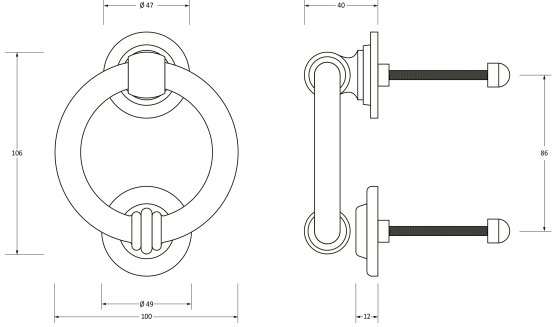

Fixed to your door using a bolt-through fixing for the knocker and strike plate, which is finished with a dome head cap on the internal side of the door.

Supplied with matching 70mm stainless steel threaded bars and dome headed caps.

Our black finish is a popular choice in traditional settings, it has a subtle sheen and offers a bold contrast on both stained and painted timber alike. It is baked in a high-temperature oven giving it durable corrosion resistant properties.

Property	Value
Finish	Black
Depth (mm)	40
Width (mm)	100
Range	Ring
Overall Length (mm)	106

Gallery

Technical drawing of a 4" Ring Door Knocker. The drawing includes three views: a front view showing the ring and base plate with dimensions (106mm height, 84mm width, 86mm width), a side view showing the ring and base plate with dimensions (60mm width, 12mm height), and a top view showing the ring and base plate with dimensions (86mm width, 12mm height).

Please Note, due to the hand crafted nature of our products all measurements are approximate and should be used as a guide only.
