

## Ring Door Knocker – 4" – Black

**Variant code: 33869**

Our extensive selection of door knockers suit a variety of doors from timber, composite, upvc and aluminium offering both traditional and contemporary designs.

One of our most traditional products, a classic knocker best suited to cottage front doors.

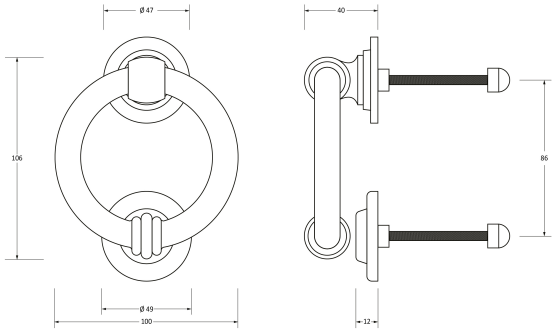

Fixed to your door using a bolt-through fixing for the knocker and strike plate, which is finished with a dome head cap on the internal side of the door.

Supplied with matching 70mm stainless steel threaded bars and dome headed caps.

Our black finish is a popular choice in traditional settings, it has a subtle sheen and offers a bold contrast on both stained and painted timber alike. It is baked in a high-temperature oven giving it durable corrosion resistant properties.

| Property            | Value |
|---------------------|-------|
| Finish              | Black |
| Depth (mm)          | 40    |
