

Alexa Google Wi-Fi Control Module for Smart Power Supply

Variant code: LDX24ALX

The **Alexa & Google Wi-Fi Control Module for Smart Power Supply** is an intelligent accessory designed to add wireless connectivity to compatible **Domus Line Smart Power Supplies**. Once installed, it enables connected LED luminaires to be controlled remotely using the **DOMUS4U Wi-Fi app** on a smartphone or tablet, providing convenient lighting management from anywhere within the network.

The module activates the Smart Power Supply's Wi-Fi functionality, allowing users to switch compatible luminaires on and off and control supported lighting functions directly from the app. It also enables seamless integration with **Amazon Alexa** and **Google Home**, providing convenient voice control for compatible furniture lighting installations.

Designed as a simple plug-in accessory, the Wi-Fi Control Module integrates directly with compatible Domus Line Smart Power Supplies, creating a flexible smart lighting solution for residential and commercial environments.

Product Features

- Wi-Fi control module for compatible Domus Line Smart Power Supplies
- Enables wireless control via the DOMUS4U Wi-Fi app
- Compatible with Amazon Alexa voice control
- Compatible with Google Home voice control
- Simple plug-in installation
- Designed for use with compatible Smart Power Supplies
- Supports smartphone and tablet control over connected luminaires
- Compact design for discreet installation

Product Benefits

- Adds smart Wi-Fi control to compatible Domus Line lighting systems
- Control connected luminaires remotely

using the DOMUS4U Wi-Fi app

- **Compatible with Alexa and Google Home for convenient voice operation**
- Quick plug-and-play installation into compatible Smart Power Supplies
- Provides a modern, connected lighting experience without complex wiring
- Ideal for residential and commercial furniture lighting applications
- Expands the functionality of compatible Domus Line Smart Power Supplies
- Compact module installs neatly within the lighting system

Technical Characteristics

- Product Type: Wi-Fi Control Module
- Compatibility: Domus Line Smart Power Supplies
- Control Method: DOMUS4U Wi-Fi App
- Voice Control: Amazon Alexa and Google Home
- Installation: Plug-in Module
- Application: Wireless Control of Compatible LED Luminaires

Applications

The **Alexa & Google Wi-Fi Control Module for Smart Power Supply** is ideal for enhancing **under-cabinet lighting, wardrobe lighting, shelving, display cabinets, kitchen furniture, retail displays, office furniture, hospitality interiors and bespoke joinery**. When used with a compatible Domus Line Smart Power Supply, it enables convenient smartphone and voice control of connected LED lighting through the DOMUS4U Wi-Fi app, Amazon Alexa and Google Home.
