Variant code: 833.72.846

Aluminium Profile, for Loox LED Flexible Strip Lights, Loox 1191

This Loox 1191 Aluminium Profile is the perfect solution for enhancing the appearance and performance of your Loox LED Flexible Strip Lights. Crafted from high-quality aluminium, this sleek and durable channel offers a professional finish for your lighting installations while providing superior heat dissipation to extend the lifespan of your LED strips.

Key Features:

Designed for Loox 1191 LED Strip Lights: Ensures optimal compatibility and performance.

Premium Aluminium Construction: Offers excellent durability, corrosion resistance, and a modern aesthetic.

Efficient Heat Dissipation: Reduces heat buildup, extending the lifespan of your LED strips and maintaining optimal brightness.

Easy Installation: Simple and straightforward installation with included clips and accessories.

Sleek & Minimalist Design: Adds a touch of elegance to any space, whether residential or commercial.

Versatile Applications: Ideal for various applications, including under-cabinet lighting, cove lighting, accent lighting, and more.

Benefits:

Improved Aesthetics: Creates a clean and professional look for your LED lighting installations.

Enhanced Performance: Optimises the performance of your Loox LED Strip Lights by improving heat management.

Increased Lifespan: Extends the lifespan of your

LED strips, reducing the need for frequent replacements.

Easy Maintenance: Simple to clean and maintain, ensuring long-lasting beauty.

Applications:

- Under-cabinet lighting
- Cove lighting
- Accent lighting
- Decorative lighting
- Backlighting for TVs and monitors
- Showcase and display lighting
- Commercial and residential applications
