Aluminium Profile, for Recess Mounting Loox5 LED Flexible Strip Lights, 1103

Variant code: 833.95.722

Aluminium Profile, for Recess Mounting Loox5 LED Flexible Strip Lights, 1103

This high-quality aluminium profile is designed for recess mounting of Loox5 LED flexible strip lights.

Key Features:

Sleek and Modern: Provides a clean and professional finish for your LED lighting installations.

Durable and Robust: Constructed from high-grade aluminium for excellent heat dissipation and long-lasting performance.

Easy Installation: Simple to install with included clips for secure and effortless mounting.

Perfect for Loox5: Specifically designed to accommodate Loox5 LED strip lights of various sizes and wattages.

Versatile Applications: Ideal for recessed lighting in coves, under cabinets, behind shelves, and more.

Benefits:

Enhanced Aesthetics: Improves the overall look of your lighting project with a stylish and professional appearance.

Improved Heat Dissipation: Extends the lifespan of your LED strip lights by reducing heat buildup.

Easy Maintenance: Simple to clean and maintain for continued excellent performance.

Professional Results: Achieve high-quality lighting installations with a polished and professional finish.
