Blum Modul Appliance Mounting Plate - Cruciform Expando Split Dowels - Nickel - 0mm

Variant code: 194K6100E

Blum Modul Appliance Mounting Plate - Cruciform Expando Split Dowels - Nickel is engineered to provide secure and precise hinge fixing for appliance door applications within the Blum MODUL hinge system. Designed specifically for integrated appliance installations, this mounting plate ensures stable attachment and accurate door alignment while maintaining consistent hinge geometry. Manufactured from durable steel with a protective **nickel-plated finish**, it delivers long-term reliability in residential kitchen environments.

The **cruciform mounting plate design** supports accurate positioning and dependable retention to the cabinet side panel. Featuring **Expando split dowels**, the plate anchors securely into prepared drilling, with the split dowels expanding within the panel to provide strong mechanical hold. This fixing method supports secure installation in cabinetry used for integrated appliances.

The **0mm height configuration** provides a neutral hinge offset between the cabinet side and hinge arm. When correctly paired with the appropriate Blum MODUL appliance hinge, it ensures accurate overlay calculation, proper door projection and smooth appliance door operation.

Product Features

- Designed for **Blum MODUL appliance hinge systems**
- **Cruciform mounting plate configuration**
- Integrated **Expando split dowel fixing**
- **0mm height configuration**
- Durable **nickel-plated steel finish**
- Engineered for secure cabinet side fixing
- Supports accurate hinge positioning

Product Benefits

- Ensures stable and secure hinge mounting for appliance doors
- Provides strong retention with Expando split dowels

Email: info@swshardware.com

- Supports accurate door alignment and consistent reveals
- Maintains correct hinge offset for overlay calculations
- Integrates seamlessly within the Blum MODUL appliance hinge platform
- Designed for durability in kitchen environments

Technical Characteristics

- **0mm plate height** determines final hinge positioning
- Expando split dowels require correctly prepared cabinet side drilling
- Steel construction with protective nickel finish
- Designed for use with compatible **Blum MODUL appliance hinges**
- Correct hinge and plate pairing ensures optimal appliance door performance

Applications

This mounting plate is intended for integrated appliance cabinet installations requiring a **0mm hinge offset** within the Blum MODUL system. Commonly used for built-in refrigerators, freezers and other appliance fronts, it provides secure hinge mounting and precise alignment to ensure smooth and reliable door operation in residential kitchen environments.

Property	Value
Finish	Nickel
Mounting Plate Type	Cruciform
Fixing Type	Expando
