ATOM 20° Angled Surface Mount Spacer 70.5mm ø x 32mm - Black

Variant code: LLA240602BK

The **ATOM 20° Angled Surface Mount Spacer** is a purpose-designed mounting accessory that allows compatible **ATOM LED spotlights** to be installed as a surface-mounted fitting with a **20° angled beam direction**. Ideal where recessed installation is not possible or where directional lighting is preferred, the spacer provides a neat, professional solution while maintaining the clean aesthetics of the ATOM lighting system.

Designed specifically for use with the **ATOM LED spotlight**, the spacer positions the luminaire at a fixed 20° angle to improve light distribution over worktops, shelving, display areas and cabinetry. Manufactured to complement the ATOM lighting range, it enables greater installation flexibility without compromising appearance.

Please note that the **ATOM LED spotlight, LED converter and control accessories are sold separately**. This product includes the surface mounting spacer only.

Product Features

- Surface mounting spacer for ATOM LED spotlight
- Provides a fixed 20° angled installation
- Designed exclusively for compatible ATOM LED luminaires
- Ideal where recessed installation is not practical
- Allows directional lighting for improved illumination
- Compact and discreet surface-mounted design
- Dimensions: 70.5mm diameter × 32mm height
- Suitable for residential and commercial furniture lighting
- ATOM spotlight not included

Product Benefits

- **Converts compatible ATOM LED spotlights into a practical angled surface-mounted fitting**
