ATOM Straight Surface Mount Spacer 70.5mm ø x 12mm - Black

Variant code: LLA240601BK

The **ATOM Straight Surface Mount Spacer** is a dedicated mounting accessory that enables compatible **ATOM LED spotlights** to be installed as surface-mounted luminaires. Creating a neat installation that projects just **12mm** from the mounting surface, this spacer provides an ideal solution where recessed installation is not practical while maintaining the clean, contemporary appearance of the ATOM lighting system.

Designed exclusively for use with the **ATOM LED spotlight**, the spacer allows quick and secure surface installation on furniture, cabinetry and display units. Its low-profile design preserves the minimalist styling of the fitting while providing the flexibility to install ATOM luminaires on solid panels or locations where recessing is not possible.

Please note that the **ATOM LED spotlight, LED converter and control accessories are sold separately**. This product includes the surface mounting spacer only.

Product Features

- Surface mounting spacer for ATOM LED spotlight
- Provides straight surface-mounted installation
- Allows the spotlight to protrude 12mm from the mounting surface
- Designed exclusively for compatible ATOM LED luminaires
