Blum Aventos HK Top Lift Mechanism - Tip-on - Power Factor 930-2800

Variant code: 22K2500T

Blum Aventos HK Top Lift Mechanism - Tip-on is a **stay lift system solution** designed for overhead cabinetry where clean aesthetics and reliable opening performance are required. Manufactured by Blum, a globally recognised brand in furniture fittings, the Aventos HK system delivers consistent motion and durability for single front lift-up doors.

Designed for use with **Tip-On**, the mechanism enables handle-less opening through a push-to-open function, supporting modern furniture design without visible handles. The system is available across multiple **power factor ranges**, allowing accurate specification based on cabinet size and front weight. This ensures balanced movement and controlled opening behaviour across a range of cabinet configurations.

The compact design makes the Aventos HK system particularly suitable for small to medium wall cabinets, providing efficient use of internal space while maintaining smooth operation. Integrated adjustment features allow for precise alignment during installation, ensuring a clean and professional finish.

Product Features

- **Stay lift mechanism** for overhead cabinet applications
- Designed for Blum Aventos HK lift system configurations
- **Tip-On compatible** for handle-less push-to-open operation
- Available in multiple **power factor ranges** for flexible specification
- Compact design for smaller cabinet formats
- Smooth and controlled opening and closing motion

Product Benefits

- Enables clean, handle-less cabinet design
- Provides ergonomic and convenient access
- Supports **balanced and controlled** door

movement
- Optimises space in compact cabinet layouts
- Ensures consistent performance across installations
- Enhances modern furniture aesthetics

Technical Characteristics

- Available in power factor ranges **930–2800, 1730–5200, 3200–9000**
- Designed for **Aventos HK lift system** applications
- Requires correct selection based on cabinet size and front weight
- Compatible with **Tip-On push-to-open** system
- Adjustable for alignment and positioning
- Engineered for **long-term** durability

Applications

Blum Aventos HK Top Lift Mechanism Tip-on is suitable for residential and commercial cabinetry, particularly in kitchen wall units and overhead storage where handle-less design is preferred. It is ideal for small to medium cabinets where a simple upward opening door provides efficient access. The system is commonly used in modern kitchens and fitted furniture projects where clean design, functionality and consistent performance are key requirements.
