

Blum Aventos HK Top Lift Mechanism – Tip-on – Power Factor = 930–2800

Variant code: 22K2500T

Achieve seamless, handle-less upper cabinet functionality with the premium AVENTOS HK Top Tip-on Lift Mechanism (PF 930–2800). This high-quality lifting system from Blum, a leader in furniture hardware, offers unparalleled convenience and elegance for your kitchen, bathroom, or living space cabinets.

Effortless Access & Clean Design:

- **Tip-on Technology:** Experience the magic of handle-less design. A gentle touch is all it takes to open your cabinet door, thanks to the integrated Tip-on mechanism. This creates a clean, minimalist aesthetic, perfect for modern interiors.
- **Overhead Lifting Action:** The AVENTOS HK Top lifts cabinet doors upwards and parallel to the cabinet body, providing clear and unobstructed access to the contents. Ideal for wall cabinets, spice racks, and appliance garages.
- **Smooth & Silent Operation:** Enjoy the renowned Blumotion soft-close feature (available separately) for gentle and quiet closing. Combine with Tip-on for a truly luxurious user experience.
- **Variable Power Factor (PF 930–2800):** This versatile mechanism accommodates a wide range of cabinet door weights and sizes, ensuring optimal performance. Calculate your power factor to select the correct mechanism for your specific application.
- **Precise Front Adjustment:** Achieve perfect front alignment with easy 3-dimensional adjustment, ensuring a professional and polished finish.

Key Features & Benefits:

- **Handle-less Design:** Create a sleek, contemporary look with push-to-open functionality.
- **Space-Saving Solution:** Ideal for overhead cabinets where traditional hinges might obstruct access.

- **Enhanced User Convenience:** Effortless opening and closing for everyday use.
- **High-Quality Construction:** Durable and reliable, built to Blum's exacting standards.
- **Easy Installation:** Designed for straightforward installation, saving you time and effort.
- **Versatile Application:** Suitable for various cabinet types and sizes within the specified power factor range.
- **Blum Quality:** Trust in the reliability and longevity of a product from a world leading hardware manufacturer.
