

Blum Aventos HK-XS Blumotion Lift Mechanism Set – Power Factor 200 – 1000

Variant code: 20K1100

Premium Aventos HK-XS Blumotion Lift Mechanism Set (Power Factor 200-1000) for Compact Overhead Cabinets

Enhance the functionality and elegance of your smaller overhead cabinets with the **Aventos HK-XS Blumotion Lift Mechanism Set** from Blum. This precision-engineered lift system is specifically designed for cabinets with limited internal space, offering a perfect blend of performance and compactness. The integrated **Blumotion soft-close technology** ensures a smooth, silent closing motion, eliminating slamming and enhancing cabinet longevity.

The **Aventos HK-XS** is characterised by its adjustable **power factor ranging from 200 to 1000**, enabling precise matching to the weight of your cabinet door. This adaptability makes it suitable for a variety of cabinet materials and sizes, from lightweight spice cabinets to heavier storage units. Installation is straightforward, allowing for quick and efficient setup.

Key Benefits:

- **Optimised for Small Cabinets:** Perfect for tight spaces and limited cabinet heights.
- **Silent Blumotion Closing:** Prevents noise and damage with gentle, soft-close action.
- **Variable Power Factor (200-1000):** Provides flexible adjustment for different cabinet weights.
- **High-Quality Blum Construction:** Ensures long-lasting, reliable performance.
- **Simplified Installation:** Minimises installation time and effort.
- **Improved Cabinet Accessibility:** Offers easy, ergonomic access to cabinet contents.

Applications:

- Kitchen Wall Cabinets
- Bathroom Storage Units

- Furniture Cabinets
- Display Cabinets
