

Blum Aventos HK-XS Blumotion Lift Mechanism Only – Power Factor 500 – 1500

Variant code: 20K1301

Achieve Effortless Upper Cabinet Access with the Aventos HK-XS Blumotion Lift Mechanism (Power Factor 500–1500)

Tired of struggling with traditional cabinet hinges? Upgrade your kitchen, bathroom, or living space with the **Aventos HK-XS Blumotion Lift Mechanism**, designed for smooth, silent, and convenient access to smaller, lighter wall cabinets. This listing is for the **mechanism only**, offering a versatile solution for custom cabinet designs.

Experience the Blumotion Difference:

- **Silent & Soft Closing:** Integrated **Blumotion technology** ensures a gentle, feather-light closing action, eliminating slamming and minimising wear and tear. Enjoy a peaceful and refined kitchen environment.
- **Effortless Opening:** The **Aventos HK-XS** allows for easy, handle-less opening with a simple touch. The front panel lifts smoothly and stays securely in any desired position, providing unrestricted access to cabinet contents.
- **Variable Power Factor (500–1500):** This mechanism is specifically designed for cabinets with a **power factor ranging from 500 to 1500**. This wide range accommodates various cabinet sizes and weights, ensuring optimal performance.
- **Compact & Discreet Design:** The **HK-XS** is engineered for space efficiency, making it ideal for smaller wall cabinets and confined spaces. Its sleek design remains hidden within the cabinet, maintaining a clean and modern aesthetic.
- **High-Quality Blum Engineering:** Manufactured by Blum, a leader in furniture hardware, this lift mechanism is built to last. Expect exceptional durability,

reliability, and smooth operation for years to come.

- **Flexible Application:** Perfect for upper cabinets in kitchens, bathroom vanities, and other furniture applications where a compact and reliable lift mechanism is required.
