Blum Aventos HK-XS Cabinet Fixing Bracket - Nickel

Variant code: 20K5101

Blum AVENTOS HK-XS Cabinet Fixing Bracket - Nickel is designed to securely mount AVENTOS HK-XS lift mechanisms to cabinet side panels. As part of Blum's integrated lift system range, this bracket ensures stable positioning of the mechanism, supporting smooth and controlled operation of upward-opening cabinet doors.

Engineered for accuracy and durability, the bracket provides a reliable interface between the cabinet structure and the lift mechanism. Its precise design ensures correct alignment of the system, which is essential for consistent movement and long-term performance. The fixing bracket is intended for use within system-based cabinet construction, enabling efficient and repeatable installation.

Manufactured from steel with a durable **nickel-plated finish**, the bracket integrates seamlessly with the AVENTOS HK-XS system and maintains performance under repeated use. It works in conjunction with lift mechanisms, front fixing brackets and other components to form a complete and dependable lift system.

Product Features

- Designed for **Blum AVENTOS HK-XS lift systems**
- **Cabinet fixing bracket** for mechanism mounting
- Provides secure attachment to cabinet side panels
- Ensures accurate positioning of lift mechanism
- Durable **nickel-plated steel construction**
- Compatible with system-based cabinet installation

Product Benefits

- Provides stable and reliable mechanism support
- Ensures consistent and smooth lift system operation
- Supports accurate installation and alignment

Tel: 01626 333900

- Enhances overall system durability and performance
- Simplifies cabinet assembly in production environments
- Suitable for repeated everyday use

Technical Characteristics

- Compatible with **AVENTOS HK-XS lift mechanisms**
- Designed for fixing to cabinet side panels
- Steel construction with protective nickel finish
- Requires correct positioning for optimal system function
- Used in conjunction with front fixing brackets and mechanisms
- Suitable for system-drilled cabinet constructions

Applications

This cabinet fixing bracket is suitable for kitchen wall cabinets, storage units and fitted furniture using AVENTOS HK-XS lift systems. It is used to secure the lift mechanism within the cabinet structure, ensuring stable operation and accurate alignment in both residential and light commercial cabinetry applications.
