

Aventos HK-XS Tip-On Lift Mechanism Set – Power Factor 500 – 1200

Variant code: 20K1300T

Lift Mechanism Set To calculate Power Factor required multiply the cabinet height in mm x the door weight including double handle weight in kg. Å NOTE: The power factor is doubled when used on two sides. A trial application is recommended when you are in a borderline area of the individual lift mechanism. Box sizes are shown to give a guide on quantity per box, please note that items are priced individually. PLEASE NOTE: Products with ****AUSTRIAN**** in the description aren't stocked in the UK and are generally subject to minimum order quantities and lead times of 4-6 weeks.
