

Blum Aventos HK-S Lift Mechanism

Variant code: 20K2E01

Effortless Upper Cabinet Access with the Aventos HKS Lift Mechanism – Strong & Reliable

Elevate your kitchen design and functionality with the premium Aventos HKS Lift Mechanism. Designed for single, large front panels, this robust lift system provides smooth, reliable, and space-saving access to your upper cabinets. Say goodbye to cumbersome swinging doors and hello to seamless, ergonomic operation.

Strong Performance You Can Trust:

- **Engineered for Durability:** The Aventos HKS is built to last, featuring high-quality materials and precise engineering. Its "Strong" designation signifies its ability to handle heavier front panels, ensuring long-term stability and consistent performance.
- **Smooth and Silent Operation:** Experience the difference of a precisely calibrated lift mechanism. The Aventos HKS glides effortlessly, opening and closing with a gentle, controlled motion. This quiet operation adds a touch of sophistication to your kitchen.
- **Adjustable Opening Angle:** Customise the opening angle to suit your specific needs and cabinet dimensions. This flexibility allows for optimal access and maximises usable space.
- **Integrated BLUMOTION Soft-Close:** Enjoy the convenience of integrated BLUMOTION technology. This ensures a soft, silent, and effortless closing action, preventing slamming and protecting your cabinet fronts.
- **Space-Saving Design:** The Aventos HKS lifts the front panel up and over the cabinet, providing unobstructed access to the interior. This design is ideal for maximising space in smaller kitchens or where overhead clearance is limited.

Why Choose the Aventos HKS Lift Mechanism?

- **Enhanced Kitchen Ergonomics:** Easily access frequently used items without bending or reaching.
- **Modern and Streamlined Aesthetics:** Create a clean, contemporary look with a sleek, minimalist lift system.
- **Increased Cabinet Accessibility:** Ideal for storing bulky items or appliances in upper cabinets.
- **Long-Term Reliability:** Backed by the trusted reputation of Aventos, a leader in cabinet hardware.
- **Easy Installation and Adjustment:** Designed for straightforward installation and fine-tuning.

Perfect for:

- Kitchen upper cabinets
- Wall cabinets in utility rooms
- Storage solutions in workshops or garages
- Any application requiring reliable and space-efficient lift functionality.

Lift Mechanism Set To calculate Power Factor required multiply the cabinet height in mm x the door weight including double handle weight in kg. Box sizes are shown to give a guide on quantity per box, please note that items are priced individually.

PLEASE NOTE: Products with ****AUSTRIAN**** in the description aren't stocked in the UK and are generally subject to minimum order quantities and lead times of 4-6 weeks.
