Blum Aventos HK-XS Front Fixing Bracket for Wooden Fronts - Nickel

Variant code: 20K4101

Blum AVENTOS HK-XS Front Fixing Bracket for Wooden Fronts - Nickel is designed to securely connect cabinet doors to AVENTOS HK-XS lift mechanisms. Engineered as part of Blum's lift system range, this bracket ensures stable attachment of wooden cabinet fronts while supporting smooth and controlled lift system operation.

Specifically developed for **wooden cabinet fronts**, the bracket provides a secure screw-fixed connection to the door, ensuring reliable performance during repeated opening and closing cycles. Its precise design allows accurate positioning of the front in relation to the lift mechanism, supporting consistent alignment and clean cabinet lines.

Manufactured from steel with a durable **nickel-plated finish**, the bracket integrates seamlessly within the Blum AVENTOS HK-XS system. It works in conjunction with lift mechanisms and other system components to deliver balanced movement and long-term durability.

Product Features

- Designed for **Blum AVENTOS HK-XS lift systems**
- Suitable for **wooden cabinet fronts**
- Secure screw fixing to door front
- Durable **nickel-plated steel construction**
- Accurate positioning for reliable operation

Product Benefits

- Provides secure front attachment
- Ensures stable and consistent door movement
- Supports accurate door alignment
- Enhances reliability of lift system performance
- Suitable for repeated everyday use

Technical Characteristics

SWS HARDWARE
