

## Blum Aventos HKS Lift Mechanism – Tip-on

Variant code: 20K2E01T

Elevate your kitchen design with the AVENTOS HK-S Lift Mechanism TIP-ON – Strong, offering seamless, handle-less access to your small to medium-sized wall cabinets. This high-performance lift system combines Blum's renowned engineering with the convenience of TIP-ON technology, providing a truly modern and functional solution for your home.

### Key Features and Benefits:

**TIP-ON for Handle-less Design:** Experience the sleek, minimalist aesthetic of handle-less furniture. A gentle touch is all it takes to open your overhead cabinets, providing effortless access and a clean, uncluttered look.

**Strong and Reliable Performance:** Designed for heavier cabinet fronts, the "Strong" variant of the AVENTOS HK-S ensures smooth, stable, and reliable operation, even with larger and more robust door panels.

**Compact Design:** The HK-S is specifically engineered for smaller wall cabinets, making it ideal for kitchens, bathrooms, and other spaces where space optimisation is crucial.

**Variable Stop:** Allows the door to remain in any desired position, providing easy access to the cabinet's contents.

**Soft and Silent Closing (with optional BLUMOTION):** While the TIP-ON provides the opening function, you can enhance the closing experience with the optional BLUMOTION soft-close adapter (sold separately), ensuring gentle and quiet cabinet closure.

**Easy Installation and Adjustment:** The AVENTOS HK-S system is designed for straightforward installation and features intuitive adjustment options, allowing for precise front alignment and optimal performance.

**High-Quality Blum Engineering:** Benefit from the durability and reliability of Blum hardware, known for its exceptional quality and long lifespan.

**Increased Cabinet Accessibility:** The lift-up design provides unobstructed access to the cabinet interior, maximising storage efficiency.

**Versatile Application:** Suitable for a wide range of cabinet door materials and sizes, offering flexibility in design and application.

**Why Choose AVENTOS HK-S TIP-ON – Strong?**

**Modern Aesthetics:** Achieve a clean, handle-less look that complements contemporary interior design.

**Enhanced Convenience:** Enjoy effortless access to your overhead cabinets with the simple touch of TIP-ON.

**Superior Functionality:** Experience the smooth, reliable performance of Blum's lift system.

**Space Optimisation:** Maximise storage efficiency in smaller spaces with the compact HK-S design.

**Long-Lasting Durability:** Invest in a high-quality product that is built to last.

**Ideal for:**

Kitchen wall cabinets

Bathroom cabinets

Storage cabinets in living areas

Retail displays

Office furniture
