

Blum Aventos HL Lift Mechanism (Cabinet Height 300 – 580mm)

Variant code: 20L2700

Transform your kitchen or living space with the sleek and sophisticated AVENTOS HL Lift Mechanism, designed for parallel lifting of cabinet fronts. Ideal for wall cabinets with fronts positioned above other cabinets, appliances, or furniture, the AVENTOS HL delivers unparalleled ease of access and a clean, modern aesthetic.

Key Features and Benefits:

Parallel Lifting Motion: The AVENTOS HL lifts the cabinet front straight up, providing unobstructed access to the cabinet's contents. This makes it perfect for cabinets above appliances like microwaves or coffee machines, ensuring comfortable and ergonomic use.

Variable Stop Position: Effortlessly stop the front at any desired position, allowing for convenient access and hands-free operation. This feature enhances usability, especially when multitasking in the kitchen.

BLUMOTION Soft-Close: Experience the smooth and silent closing action of BLUMOTION. This integrated dampening system prevents slamming and ensures gentle, quiet operation, extending the lifespan of your cabinets.

Easy Front Adjustment: Achieve perfect front alignment with simple and precise 3-dimensional adjustment options. This ensures a seamless and professional finish.

Tool-Free Assembly: The AVENTOS HL system is designed for quick and easy installation, saving you time and effort.

High Stability and Durability: Engineered with high-quality materials, the AVENTOS HL guarantees long-lasting performance and reliable support for your cabinet fronts.

Wide Range of Applications: Suitable for various cabinet designs and materials, including wood and aluminium frames.

Cabinet Height Compatibility: Specifically designed for cabinet heights ranging from 300mm to 580mm, catering to a broad spectrum of kitchen and living space designs.

Space Optimisation: Maximises usable space within the cabinet, allowing for efficient storage and organisation.

Why Choose AVENTOS HL?

Enhanced Accessibility: Ideal for high-level cabinets, providing easy access to stored items.
Modern Design: Creates a clean and minimalist look with its parallel lifting motion.
Premium Quality: Backed by Blum's reputation for innovation and durability.
Increased Functionality: Offers features like variable stop position and optional SERVO-DRIVE for enhanced user experience.

Ideal for:

Upper kitchen cabinets above appliances.
Wall cabinets in living rooms and offices.
Handle-less cabinet designs.
Users seeking ergonomic and accessible storage solutions.
