

Blum Aventos HL Oval Cross Stabiliser for cutting to size 1061mm

Variant code: 20Q1061UA

Ensure flawless parallel front movement and unwavering stability for your AVENTOS HL lift systems with the AVENTOS HL Oval Cross Stabiliser. This 1061mm cut-to-size stabiliser is designed to significantly improve the performance and longevity of your lift-up fronts, preventing twisting and ensuring smooth, reliable operation.

Key Features & Benefits:

Enhanced Stability: Eliminates lateral movement and twisting of wide or heavy fronts, providing a rock-solid feel to your AVENTOS HL system.

Precise Parallel Movement: Guarantees that both sides of the front lift evenly, preventing misalignment and potential damage.

Cut-to-Size Flexibility: The 1061mm length allows for precise customisation to perfectly fit your cabinet dimensions, maximising efficiency and minimising waste.

Durable Construction: Built with high-quality materials, ensuring long-lasting performance and resistance to wear and tear.

Optimised for AVENTOS HL: Specifically designed for seamless integration with Blum AVENTOS HL lift systems, guaranteeing compatibility and optimal performance.

Improved Cabinet Longevity: By reducing stress on the lift mechanism and cabinet sides, the stabiliser extends the lifespan of your furniture.

Professional Finish: Contributes to a high-quality, professional finish for your kitchen or furniture projects.

Why Choose the AVENTOS HL Oval Cross Stabiliser?

For wide or heavy fronts, a stabiliser is crucial for achieving consistent and reliable performance. Without it, the front can twist or bind, leading to uneven movement, premature wear, and potential damage to the cabinet and lift system.

This AVENTOS HL Oval Cross Stabiliser provides the necessary reinforcement, ensuring smooth, effortless operation and a premium feel. Its cut-to-size functionality allows for perfect adaptation to your specific needs, making it an indispensable

component for any high-quality AVENTOS HL installation.

Ideal for:

Kitchen wall cabinets with large lift-up fronts.
Office furniture with wide overhead storage.
Custom furniture projects requiring reliable lift systems.
Any application using the Blum AVENTOS HL lift system.
