Blum Aventos Front Fixing Brackets - Suitable for HS Lift Systems - For Narrow Aluminium Frames - Nickel

Variant code: 20S4200A

Blum Aventos Front Fixing Brackets - Suitable for HS Lift Systems - For Narrow Aluminium Frames - Nickel is designed to securely connect narrow aluminium frame cabinet fronts to AVENTOS HS lift mechanisms. Engineered as part of Blum's AVENTOS lift system platform, this bracket ensures precise positioning and reliable attachment, supporting smooth and controlled lift system operation.

Specifically developed for **narrow aluminium frame fronts**, the bracket provides a secure fixing interface that accommodates slim-profile door constructions. It enables accurate alignment between the cabinet front and lift mechanism, ensuring consistent movement and maintaining clean, modern cabinet lines.

Manufactured from steel with a durable **nickel-plated finish**, the bracket offers strength, corrosion resistance and long-term reliability. It integrates seamlessly with AVENTOS HS lift systems, working alongside compatible mechanisms and components to deliver stable and balanced door operation.

Product Features

- Designed for **Blum AVENTOS HS lift systems**
- Suitable for **narrow aluminium frame fronts**
- Provides secure connection between front and mechanism
- Ensures accurate positioning and alignment
- Durable **nickel-plated steel construction**
- Compatible with system-based cabinet installations

Product Benefits

- Provides stable and reliable front attachment
- Supports smooth and consistent door

movement
- Maintains clean and precise cabinet alignment
- Enhances durability of lift system installation
- Ideal for modern aluminium frame cabinet designs
- Suitable for repeated everyday use

Technical Characteristics

- Compatible with **AVENTOS HS lift systems**
- Designed for narrow aluminium frame applications
- Steel construction with protective nickel finish
- Requires correct positioning for optimal performance
- Used in conjunction with lift mechanisms and cabinet brackets
- Suitable for system-drilled cabinet constructions

Applications

This front fixing bracket is suitable for kitchen wall cabinets, storage units and fitted furniture using AVENTOS HS lift systems where narrow aluminium frame fronts are specified. It is particularly effective in modern cabinetry designs, ensuring secure attachment, precise alignment and reliable operation in both residential and light commercial environments.
