

Blum Aventos HS Lift Mechanism

Variant code: 20S2A00.05

Transform your kitchen's upper cabinets with the sleek and efficient AVENTOS HS Lift Mechanism Set, designed for seamless, upward-swinging fronts. This premium lift system from Blum delivers unparalleled functionality, aesthetics, and ease of use, making it the perfect choice for modern kitchens seeking a touch of sophistication and practicality.

Key Features & Benefits:

Effortless Upward Swing: The AVENTOS HS mechanism allows cabinet fronts to lift smoothly and effortlessly, providing complete access to the cabinet's contents. Ideal for large, single-piece fronts, it enhances workflow and eliminates awkward reaching.

Soft-Close BLUMOTION Technology: Experience the renowned BLUMOTION soft-close feature, ensuring gentle and silent closing every time. Say goodbye to slamming cabinet doors and enjoy a tranquil kitchen environment.

Variable Stop Function: The integrated variable stop function allows you to hold the front in any desired position, offering convenient access and enhanced safety.

Adjustable Front Alignment: Achieve perfect front alignment with easy 3-dimensional adjustment, ensuring a flawless and uniform appearance for your kitchen cabinetry.

Durable and Reliable: Crafted from high-quality materials, the AVENTOS HS Lift Mechanism Set is built to withstand the rigors of daily use, providing long-lasting performance and reliability.

Space Optimisation: The upward-swinging design maximizes available space, making it ideal for kitchens with limited room or those seeking a clean, uncluttered aesthetic.

Versatile Application: Suitable for a wide range of cabinet sizes and weights, the AVENTOS HS system offers flexibility in kitchen design and customisation.

Easy Installation: Designed for user-friendly installation, this lift mechanism set simplifies the cabinet assembly process.

Blum Quality Assurance: Backed by Blum's reputation for excellence, you can trust in the quality, durability, and performance of the AVENTOS HS system.
