

Blum Legrabox Drawer Side – 'C' Height (177.5mm) – 400mm NL – Left & Right Handed – Stainless Steel

Variant code: 770C4002IV1

Elevate your designs and streamline your projects with the Legrabox Drawer Side 'C' Height, a sophisticated and robust solution for creating high-quality drawers. This meticulously engineered drawer side in elegant Silk White offers exceptional functionality and a sleek aesthetic, making it the ideal choice for a wide range of applications, from premium kitchens and bespoke furniture to efficient commercial storage.

Designed for Professionals:

This Legrabox drawer side is specifically crafted to meet the demanding needs of **joiners, cabinet makers, architects, project managers, and kitchen designers**. Its precise construction and intuitive design ensure a smooth and efficient installation process, saving valuable time and resources on site or in the workshop.

Key Features & Benefits:

- **Premium Quality & Durability:** Built with high-grade materials, the Legrabox system guarantees exceptional stability, load-bearing capacity, and a long service life, ensuring lasting customer satisfaction.
- **Elegant Silk White Finish:** The sophisticated Silk White finish offers a timeless and versatile aesthetic that seamlessly integrates with a variety of interior styles and material palettes.
- **'C' Height Versatility:** The 'C' height profile provides ample internal drawer space while maintaining a clean and modern external appearance.
- **500mm Nominal Length (NL):** This standard length is suitable for a wide range of cabinet depths, offering flexibility in design and application.
- **Left & Right Hand Pair:** Supplied as a complete left and right-hand pair, ensuring a perfect and balanced drawer construction.
- **Smooth & Silent Operation:** Renowned

for its smooth, gliding action and silent closing mechanisms (when used with compatible Legrabox components), enhancing the user experience.

- **Effortless Installation:** The intelligent design and precise engineering of the Legrabox system simplify the installation process, reducing fitting time and potential errors.
- **Modular System Compatibility:** Seamlessly integrates with the full range of Legrabox inner dividing systems, front fixing brackets, and other accessories, allowing for highly customisable and organized drawer interiors.
- **Consistent Quality & Reliability:** Backed by the trusted reputation of the Legrabox brand, ensuring consistent quality and reliable performance across every project.

Why Choose Legrabox for Your Business?

By specifying and utilising the Legrabox Drawer Side 'C' Height, your business benefits from:

- **Enhanced Project Quality:** Deliver superior quality furniture and installations that exceed client expectations.
- **Increased Efficiency:** Streamlined installation processes save time and reduce labor costs.
- **Improved Design Flexibility:** The versatile design and modularity allow for greater creative freedom and tailored solutions.
- **Reduced Callbacks:** The reliability and durability of Legrabox minimize the risk of post-installation issues.
- **Stronger Client Satisfaction:** Provide end-users with drawers that are not only aesthetically pleasing but also exceptionally functional and long-lasting.

Optimize your designs and build with confidence. Choose the Legrabox Drawer Side 'C' Height – 500mm NL – Left & Right Hand – Silk White for a premium drawer solution that delivers on both performance and aesthetics.
