Blum Legrabox Front Inner Drawer Connector Brackets - 'M' Height (90.5mm) - Terra Black

Variant code: ZI7.0MTB

Blum LEGRABOX Front Inner Drawer Connector Bracket - M Height 90.5mm is designed to securely connect inner drawer fronts within the LEGRABOX drawer system, ensuring precise alignment and consistent positioning. Engineered as part of Blum's premium drawer platform, this bracket supports the construction of internal drawers while maintaining the system's clean, linear design and high-performance standards.

The **M height (90.5mm)** configuration is suited to standard inner drawer applications, providing reliable front fixing while maintaining structural stability. The connector bracket enables accurate positioning of inner drawer fronts and supports smooth integration with LEGRABOX drawer sides and runners. Its design allows for controlled adjustment during installation, ensuring consistent reveals and alignment.

Available in a range of finishes including **Stainless Steel, Silk White and Terra Black**, the bracket allows seamless coordination with drawer systems and cabinet interiors. Manufactured to Blum's precision standards, it integrates fully within the LEGRABOX system to deliver dependable performance and long-term durability.

Product Features

- Designed for **Blum LEGRABOX inner drawer systems**
- **M height (90.5mm)** compatibility
- Suitable for **inner drawer front connection**
- Available in multiple **finishes**
- Precision-engineered for accurate alignment
- Compatible with LEGRABOX drawer sides and runners

Product Benefits

- Ensures secure and stable inner drawer front fixing
- Supports consistent alignment and clean
