Blum Legrabox Runners - Full Extension Tip-on BLUMOTION - 70kg - Left & Right Hand 550mm

Variant code: 753.5501SV1

Blum LEGRABOX Runner - Full Extension TIP-ON BLUMOTION 70kg is engineered to deliver **high load capacity**, **synchronised smooth running** and **handle-less opening convenience** within a single integrated system. As part of Blum's advanced LEGRABOX drawer platform, this runner combines **TIP-ON push-to-open technology** with **BLUMOTION soft-close damping**, allowing drawers to open with a light press and close quietly and smoothly.

Designed for full extension operation, the runner provides **complete access to drawer contents**, improving usability in both residential and commercial environments. The integrated synchronised runner mechanism ensures **stable, consistent movement**, even under heavier loads, maintaining smooth performance throughout the drawer's full travel.

With a **70kg load capacity**, this runner is particularly suited to wider and heavier drawers requiring increased strength and durability. It supports precise adjustment to achieve **accurate alignment and consistent reveals**, ensuring a high-quality finish across multiple drawer installations. Available in a range of **nominal lengths** and **finish/colour options**, it can be specified to suit various cabinet dimensions and design requirements.

Product Features

- **Full extension runner system** for complete drawer access
- Integrated **TIP-ON push-to-open mechanism**
- Built-in **BLUMOTION soft-close technology**
- **70kg load capacity** for heavy-duty drawer applications
- **Synchronised runner movement** for smooth operation
- Available in multiple **nominal lengths**
- Available in various **finish/colour options**

Product Benefits

- Enables **handle-less drawer design**
- Provides **smooth, quiet and controlled closing**
- Supports **heavy and wide drawer configurations**
- Improves accessibility to drawer contents
- Maintains **stable and consistent drawer movement**
- Ensures **professional alignment and installation results**

Technical Characteristics

- Compatible with **Blum LEGRABOX drawer systems**
- Combines **TIP-ON and BLUMOTION** in one integrated mechanism
- Designed for **full extension drawer applications**
- Supports synchronised runner operation for stability
- Available in multiple nominal lengths for different cabinet sizes
- Requires correct system components for optimal performance

Applications

This runner system is suitable for **kitchen cabinetry, wardrobes, storage units and fitted furniture** where **handle-less design**, **high load capacity** and **smooth operation** are required. It is particularly effective for **large or heavily loaded drawers**, such as pan drawers or storage units, where both **ease of use and durability** are essential. The availability of different **nominal lengths and finish options** allows it to be specified across a wide range of cabinetry designs, from residential kitchens to commercial installations.
