Blum Legrabox Steel Back - 'K' Height (90.5mm) - Orion Grey - 400mm

Variant code: ZB7K332SOG

Blum LEGRABOX Steel Back - 'K' Height (90.5mm) - Orion Grey is designed to complete the rear structure of LEGRABOX drawer systems, providing a precise and durable connection between drawer sides while maintaining the system's slim, modern aesthetic. Manufactured to Blum's high engineering standards, this steel back ensures structural integrity and consistent drawer performance across a wide range of applications.

The **K height (90.5mm)** configuration is suited to standard drawer applications where a lower drawer profile is required. Designed to match LEGRABOX drawer sides, the steel back integrates seamlessly into the system, ensuring accurate alignment and a clean internal finish. Its design supports efficient assembly and reliable operation when paired with compatible runners, drawer sides and fixing components.

Available across a range of **nominal lengths**, the steel back allows the drawer system to be specified according to cabinet depth and application requirements. The durable **Orion Grey finish** complements contemporary cabinetry designs and ensures consistency across the full LEGRABOX system.

Product Features

- Designed for **Blum LEGRABOX drawer systems**
- **K height (90.5mm)** drawer back configuration
- Available in multiple **nominal lengths**
- Durable **Orion Grey finish**
- Precision-engineered steel construction
- Seamless integration with LEGRABOX drawer sides

Product Benefits

- Provides strong and stable drawer rear support
- Ensures accurate alignment within the drawer system
- Supports clean and consistent internal

drawer design
- Allows flexibility across different cabinet depths
- Enhances overall drawer stability and performance
- Complements modern cabinetry aesthetics

Technical Characteristics

- Designed for use with **LEGRABOX drawer sides and runners**
- Nominal length must match runner and drawer side specification
- Requires appropriate fixing components for installation
- Steel construction with protective coated finish
- Precision-manufactured for consistent fit and alignment
- Correct system pairing ensures optimal drawer performance

Applications

This steel back is suitable for kitchen, bedroom and fitted furniture drawer systems using Blum LEGRABOX components. The K height configuration is commonly used in standard drawer applications where a lower drawer side is required. Available in multiple nominal lengths, it supports a wide range of cabinet depths, making it suitable for both residential and light commercial cabinetry projects requiring durable and precisely engineered drawer construction.

Property	Value
Finish	Orion Grey Matt
Material	Steel
Nominal Length (mm)	332
Cabinet Profile Width (mm)	400
Min. Inner Cabinet Width (mm)	362.5
Max. Inner Cabinet Width (mm)	363.4
