Blum Movento Runner - Side Mount Full Extension BLUMOTION - 60KG - 580mm

Variant code: 766H5800S

Blum Movento Runner - Side Mount Full Extension BLUMOTION - 60kg is designed to deliver exceptionally smooth and precise drawer movement in high-performance cabinetry applications. Manufactured by **Blum**, a globally recognised leader in cabinet hardware engineering, the MOVENTO runner system combines refined motion technology with high load performance to support modern furniture design where durability, alignment precision and user comfort are essential.

The runner features **full extension functionality**, allowing drawers to open completely so the entire drawer interior remains visible and easily accessible. Integrated **BLUMOTION soft-close technology** ensures drawers close smoothly and silently, preventing slamming and reducing wear on cabinet components. This controlled closing action enhances both usability and long-term cabinet durability.

The **side mount runner configuration** provides stable lateral guidance and reliable drawer support, making it suitable for wider drawers or installations requiring increased load capacity. The MOVENTO system also incorporates **four-dimensional adjustment capability**, allowing installers to fine-tune drawer front positioning vertically, laterally, in depth and tilt. This enables accurate alignment and consistent reveal gaps across multi-drawer cabinet installations.

Designed to support drawers with loads up to **60kg**, the runner provides dependable performance in demanding storage applications. The system is available in a range of **nominal lengths**, allowing it to accommodate different cabinet depths while maintaining the precise running performance associated with Blum drawer systems.

Product Features

- **Side mount drawer runner system**
- **Full extension drawer movement** for complete access

- Integrated **BLUMOTION soft-close mechanism**
- **60kg load capacity** for heavy-duty drawer applications
- **Four-dimensional adjustment** for precise drawer alignment
- Available in multiple **nominal lengths** to suit cabinet depths

Product Benefits

- Provides smooth and stable drawer movement under load
- Ensures quiet and controlled soft closing
- Improves visibility and accessibility inside drawers
- Supports accurate drawer front alignment
- Enhances durability in demanding cabinet installations
- Suitable for residential and light commercial furniture

Technical Characteristics

- Side-mounted runner configuration
- Full extension drawer travel
- Integrated BLUMOTION damping system
- Maximum load capacity: **60kg**
- Four-dimensional drawer front adjustment
- Available in a range of nominal lengths

Applications

The Blum MOVENTO side mount runner is commonly specified for premium kitchen cabinetry, wardrobes, office furniture and bespoke joinery where smooth movement and higher load capacity are required. Its full extension design provides unrestricted access to drawer contents, while the integrated BLUMOTION soft-close mechanism ensures controlled and quiet closing. Available in multiple nominal lengths, the runner system adapts easily to a wide range of cabinet depths and drawer configurations.

Property	Value
Weight Capacity (kg)	60
