Blum Clip Top - 30° Door Hinge Blumotion - Overlay - Nickel

Variant code: 973A7360

Blum Clip Top - 30° Door Hinge Blumotion - Overlay - Nickel is designed for cabinet doors installed on angled cabinet constructions where controlled closing performance and precise hinge positioning are required. Manufactured by **Blum**, a globally recognised specialist in precision cabinet hardware, this hinge forms part of the **CLIP top BLUMOTION system**, integrating soft-close technology directly within the hinge for smooth and quiet door operation.

The hinge provides a **30° opening angle**, making it suitable for cabinets with angled fronts, such as diagonal corner units or specialised furniture designs. Designed for **overlay cabinet door applications**, the hinge allows the door to cover the cabinet side while maintaining consistent door alignment and balanced reveals. The integrated **BLUMOTION soft-close mechanism** ensures controlled closing action, helping reduce door impact and improving everyday cabinet usability.

Manufactured from durable **nickel-plated steel**, the hinge offers strength, corrosion resistance and a clean appearance suitable for a wide range of cabinet interiors. As part of the **Blum CLIP top hinge system**, the hinge clips securely onto compatible mounting plates using a **tool-free installation method**, allowing quick installation and straightforward adjustment. The hinge also supports **three-dimensional adjustment**, enabling precise vertical, lateral and depth alignment for accurate door positioning.

Product Features

- **30° opening angle** for angled cabinet installations
- Integrated **BLUMOTION soft-close mechanism**
- Designed for **overlay cabinet door applications**
- Durable **nickel-plated steel construction**
- Compatible with **Blum CLIP top mounting plates**
- **Tool-free CLIP top hinge attachment system**
- **Three-dimensional adjustment capability**

Product Benefits

- Provides **smooth and quiet door closing**

• Suitable for **angled cabinet layouts and diagonal furniture designs**
• Helps maintain precise door alignment and consistent reveals
• Reduces door impact and protects cabinet components
• Supports efficient hinge installation and adjustment
• Suitable for residential and light commercial cabinetry

Technical Characteristics

• **30° hinge opening angle**
• Integrated **BLUMOTION soft-close technology**
• Compatible with **Blum CLIP top mounting plates**
• Steel hinge construction with **nickel-plated finish**
• Adjustable vertically, laterally and in depth
• Designed for integration within **Blum cabinet hardware systems**

Applications

This hinge is intended for **overlay cabinet doors installed on angled cabinet constructions**, such as diagonal corner cabinets and bespoke furniture designs. The **30° opening angle** allows doors to operate correctly within angled cabinet layouts, while the integrated **BLUMOTION soft-close mechanism** ensures controlled, quiet closing performance. It is commonly used in kitchens, wardrobes and fitted furniture where precise alignment, durability and user comfort are required.
