Blum Clip Top - 45° Door Hinge Blumotion - Half Overlay - Nickel

Variant code: 973A7480

Blum Clip Top - 45° Door Hinge Blumotion - Half Overlay - Nickel is designed for cabinet doors installed on angled cabinet constructions where controlled closing performance and precise hinge positioning are required. Manufactured by **Blum**, a globally recognised specialist in precision cabinet hardware, this hinge forms part of the **CLIP top BLUMOTION system**, which integrates soft-close technology directly into the hinge mechanism. This integrated damping system ensures cabinet doors close smoothly and quietly, reducing door impact while improving everyday usability.

The hinge provides a **45° opening angle**, making it suitable for cabinets with angled fronts such as diagonal corner cabinets and custom furniture layouts. Designed for **half overlay door applications**, the hinge allows two doors to share a central cabinet panel while maintaining accurate alignment and consistent reveals. As part of the Blum CLIP top system, the hinge clips securely onto compatible mounting plates using a **tool-free attachment method**, allowing efficient installation and simplified removal during adjustment or maintenance.

Manufactured from durable **nickel-plated steel**, the hinge offers corrosion resistance and a neutral finish suitable for a wide range of cabinetry styles and interiors. Combined with **three-dimensional adjustment capability**, the hinge enables precise vertical, lateral and depth positioning to achieve accurate door alignment and reliable long-term performance.

Product Features

• **45° opening angle** designed for angled cabinet constructions
• Integrated **BLUMOTION soft-close mechanism** for controlled door closing
• Designed for **half overlay cabinet door applications**
• Durable **nickel-plated steel hinge construction**
• Compatible with **Blum CLIP top mounting plates**
• **Tool-free CLIP top hinge attachment system** for efficient installation

• **Three-dimensional hinge adjustment** for accurate alignment

Product Benefits

• Provides **smooth and quiet cabinet door closing**
• Reduces door impact to protect cabinet components
• Supports angled cabinet layouts and specialised furniture designs
• Enables consistent door alignment and even cabinet reveals
• Improves installation efficiency with clip-on hinge assembly
• Allows flexible hinge installation across different fixing configurations

Technical Characteristics

• Designed for **Blum CLIP top BLUMOTION hinge system integration**
• Compatible with **Blum CLIP top mounting plates**
• Adjustable **vertically, laterally and in depth**
• Durable **steel hinge construction with nickel finish**
• Engineered for integration within **Blum cabinet hardware systems**

Applications

This hinge is intended for **half overlay cabinet doors installed on angled cabinet constructions**, such as diagonal corner cabinets and bespoke joinery designs. The **45° opening angle** enables doors to function correctly within angled cabinet layouts while maintaining smooth hinge movement. The integrated **BLUMOTION soft-close technology** ensures controlled and quiet closing performance, making the hinge suitable for kitchens, wardrobes, fitted furniture and other cabinetry applications where precise alignment, durability and improved user comfort are required.
