Button-fix™ - 2020 Button Marker Tool

Variant code: 171-005-1

The **Button-fix™ 2020 Button Marker Tool** is a precision installation accessory designed to make fitting **Button-fix™ Type 1 concealed fixing systems** faster, easier and more accurate. Engineered to eliminate time-consuming measuring and marking, this simple yet highly effective tool enables perfect alignment between the Button and Fix components, helping installers achieve professional results every time.

By accurately transferring the fixing position from the panel to the mounting surface, the Button Marker significantly reduces installation time while minimising the risk of positioning errors. Whether you're fitting architectural wall panels, cabinetry, exhibition displays or bespoke furniture, the Marker Tool streamlines installation and improves overall accuracy.

An essential accessory for professional joiners, shopfitters, cabinet makers and DIY users, the Button-fix™ 2020 Marker Tool ensures precise alignment for reliable engagement of the complete Button-fix™ Type 1 concealed fixing system.

Product Features

- Genuine Button-fix™ 2020 Marker Tool
- Designed for Button-fix™ Type 1 fixing systems
- Provides fast and accurate Button alignment
- Eliminates most measuring and marking out
- Simple push-fit installation aid
